LAUNCESTON **2020**

COME AND JOIN US FOR THE **EXPERIENCE OF A LIFETIME.**

2020 sees Australia's most inspirational sporting event the Australian Transplant Games - in Tasmania for the first time.

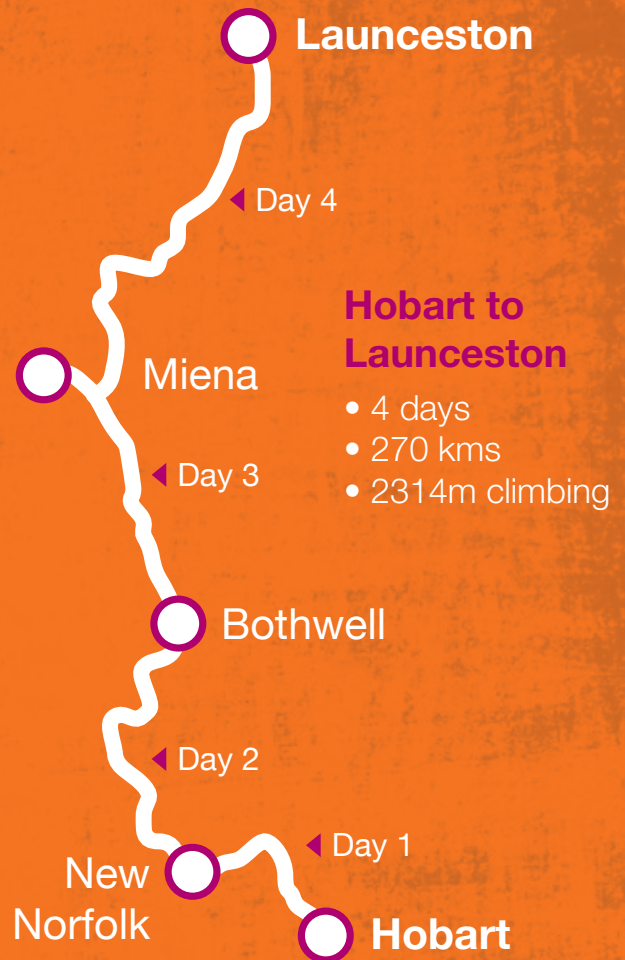

To honour the Games and the gift that is organ and tissue donation we are inviting cyclists to join us on a charity ride the Tassie Transplant Ride. The ride is designed to link the state of Tasmania in celebration of the Games. There will be main ride that takes 4 days and will take riders from Hobart to Launceston. It promises to be a memorable ride, starting in historic Hobart, climbing through Tassie fame highlands, dotted with beautiful wilderness, lakes and quaint villages.

The final day sees a great descent into beautiful Launceston which will host the 17th Australian Transplant Games in September 2020.

If you like a challenge, have good experience with road cycling, and have always wanted to cycle through the beautiful scenery of Tassie this might just be your excuse to make the dream come true.

And you will be doing it for a great cause.

In addition, at the start and end of the ride to encourage the riders on their journey, there will be a 20km ride for other riders to join in.
